Subject: Grosse Ile Follow-Up

Jason/Yvette –

Wondering how things are coming for the coverage of costs at Grosse Ile after 9/30/17? Also, a number of questions that need some resolution soon...

- Who are we transferring utilities to?
 - I'm assuming that person will be responsible for all of the utility usage reporting beginning in FY18.
- Who will be responsible for the smaller contracts for things like pest control, etc.?
 - We can share with them existing EAS contract information to make continuing the services easier.
- Were you able to find someone to designate as an on-site Alt-COR?
 - What's the timeline for completely being out of Grosse Ile? We need ensure enough lead time to get the necessary contract modifications in place.

I'm thinking that it would be good to have another meeting to discuss the status of these items as well as get an update on what is to be done with the items on litigation hold.

I'm hoping we can connect sometime this week, as I'm on vacation next week.

Please let me know your thoughts.

Thanks.

Subject: Litigation Hold Items at Grosse Ile

Hey John,

Has a plan been made for the 50+ boxes of litigation hold documents and the three freezers of litigation hold samples (Lower Fox River/Green Bay)?

The last understanding was they would remain in place since Reg 5 was staying. Now that the decision has been made to move Reg 5 functions, a new plan is required. We should have a call soon to develop some next steps.

Thanks!

Dave

Sincerely,

Dave Shoffner
